

BannerBug™ Banner System

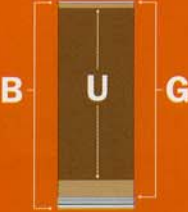

Introducing a new portable display - the **BannerBug**. An instant presentation that travels light and speaks for itself. The **BannerBug** rolls up in seconds, and is the companion for all your marketing and promotion needs.

Available as a single or double-sided display banner, the **BannerBug** is super-sleek and modern. The graphic is protected within the base unit, reducing the likelihood of damage to your valuable investment.

And... the new "Peel-Away" system makes the graphic panel **simple** to change!
